Models & Specifications

Fill-Rite® is proud to announce the newest extension of its continuous duty family with the release of the new nextec Intelligence AC models. The NX25-120 fuel transfer series allow fleet managers to fuel all day with less downtime due to short duty cycles or overheating. Our industry-leading pumps are equipped with a variable speed motor and Fill-Rite's exclusive nextec Intelligence technology for elite performance in harsh applications. Its low-profile, lightweight construction eases installation while still moving fuel more efficiently than the competition.
